## TRUSTEES' REPORT.

To his Excellency, A. P. WILLARD,  
Governor of the State of Indiana:

In obedience to the requirement of law, the Trustees of the Indiana Institute for the Education of the Blind, have the honor to submit their thirteenth annual Report.

For the year ending October 31, 1859, the financial operations of the Institute were as follows:

### *Receipts.*

Appropriation by the Legislature.....	\$15,600 00
From work department.....	1,345 72
From pupils' clothing refunded.....	660 96
From miscellaneous sources .....	125 00
	<hr/>
	\$17,731 68

### *Expenditures.*

For current expenses.....	\$8,770 18
For work department .....	1,890 48
For miscellaneous purposes.....	501 52
For stationery and printing.....	100 28
For construction and repairs.....	1,500 55
For pupils' clothing.....	857 99
For fuel and lights .....	1,645 28
For officers and salaries.....	2,240 60
For furniture.....	744 40
	<hr/>
Total.....	\$18,251 28

Showing an excess of expenditures of \$519 60, which sum, however, is more than balanced by an amount in the hands of the Superintendent, advanced for current expenses.

The increased number of pupils, the high price of work material, the unusual amount expended for improvements and repairs, the partial re-furnishing of the Institute, the purchase of a new piano, a melodeon, and other musical instruments, taken in connection with the fact, that the Superintendent, in order to get in as much as possible of what was due the work department, purchased over a thousand dollars' worth of groceries at the close of last term, most of which are now on hands, and subsequently, a thousand bushels of coal and a full supply of wood for a year to come, have all tended to increase the expenses over the year 1858. Yet the expenses have been kept strictly within the receipts, and no purchases been authorized by the Board, or made by the Superintendent, except what were absolutely demanded by the immediate wants of the Institution, except in cases where the reduced price of an article has warranted the purchase of a large quantity.

The following statement will show the annual expenditures for the support of the Institute for the years 1854, '55, '56, '57, '58 and '59.

Expenses for 1854.....	\$13,978 34
Expenses for 1855.....	19,794 31
Expenses for 1856 .....	22,292 96
Expenses for 1857.....	19,597 89
Expenses for 1858.....	12,244 01
Expenses for 1859.....	18,251 28

The number of pupils in attendance during these years were, respectively, as follows:

In 1854 .....	77
In 1855 .....	77
In 1856 .....	73
In 1857 .....	63
In 1858 .....	53
In 1859 .....	66

The following pupils were, at the close of the last term, graduated or honorably discharged—a part of them on account of improved sight, and others from the fact that they had received all the benefits that the Institute could confer.

Those thus discharged, were:

Sophia Bixler, of Allen county; Mary E. Smith, of Harrison county; Anna Snoffer, of Putnam county, and Eliza Nixon of Clark county.

The estimated expenses of the Institute for the current year, ending October 31, 1860, are as follows:

For current expenses .....	\$8,000 00
For improvements and repairs.....	1,500 00
For furniture.....	300 00
For officers and salaries.....	2,500 00
For miscellaneous expenses.....	500 00
For fuel and lights .....	1,000 00
For work department .....	1,200 00
<hr/>	
Total .....	\$15,000 00

The organization of the Institute remains the same as last year, except the music teacher, Miss Lue M. Morley, who, to the regret of all, at the close of the last term declined a re-election, and Miss Gertrude McColloch, a young lady whom the Board believe to be highly competent, was elected in her stead. The following is the organization for the current year:

Dr. J. McWorkman, Superintendent, salary \$800, and board in the Institute; Mr. Granville M. Ballard, Literary Teacher, \$500 and board in the Institute; Miss Eliza W. Bowman, Literary Teacher, \$300 with board in the Institute; Miss Gertrude McColloch, Music Teacher, \$300 with board in the Institute; Mrs. Juliette McWorkman, Matron, \$400 with board in the Institute; Mr. Milton C. Holman, Teacher in Work Department, \$300 with board in the Institute; Livingston Dunlap, M. D., \$200.

The Board bear willing testimony to the faithfulness with which all the officers of the Institute have discharged their several duties, as well as to the marked proficiency made by the pupils

in their literary and musical studies, and their progress in the art of handicraft. Appended hereto will be found the report of the Superintendent and Secretary, to which attention is invited.

Respectfully submitted.

W. H. TALBOTT, *President of the Board.*

J. McWORKMAN, *Secretary.*

## SUPERINTENDENT'S REPORT.

---

*To the Trustees of the Indiana Institute  
for the Education of the Blind.*

GENTLEMEN :—In compliance with law I have the honor of submitting this, the thirteenth annual report of the Superintendent of the Indiana Institute for the Education of the Blind, and in doing so, it affords me much gratification to be able to report its continued prosperity and usefulness.

Another year in the history of our Institution has passed away, and with it have gone from this life many of our fellow citizens and friends, yet our household, numbering in all more than eighty persons, have, through the goodness of Providence, been preserved. It is now nigh four years since a death has occurred in the Institution.

The number of pupils in the Institute at the date of my last report was *fifty-three*, of whom *ten* were either graduated or discharged at the close of the session of 1858, leaving the actual number of enrolled pupils in the Institute at the commencement of the last session *forty-three*, since which time there have been *twenty-three* admissions, making the total number in attendance during the past year *sixty-six*, an increase of *thirteen* over the preceding year.

The admissions during the month of October, 1859, are not included in the above computation. When we speak of the *past year*, we allude to the *scholastic year*, which closes on the last Wed-

nesday in July, and not to the *fiscal* year, which does not close till the 31st day of October.

All the admissions during the month of October—the commencement of the scholastic year—are reported in the catalogue of pupils in attendance the ensuing year. We have thought proper to be thus explicit on this branch of our report, so as to obviate that inconvenience experienced by the “Committee on Public Expenditures” of the last Legislature, in ascertaining the comparative cost, *per capita*, of supporting pupils in this and similar Institutions of the United States.

All the officers of the Institution have performed the duties assigned them during the past year with commendable fidelity, and we hazard nothing in saying, that in no one year since the foundation of the Institute have the pupils conducted themselves more orderly, or made more enduring proficiency in literature, in music or in handicraft.

The members of your honorable Board, as citizens of Indiana, proud of her benevolent institutions, have not been insensible or indifferent, I know, to the unpleasant fact that the reverses which this Institution has been unhappily subjected to for the last few years, in consequence of a lack of the necessary means to keep it in a vigorous and prosperous condition, coupled with the fierce ordeals it has, at times, been made to pass through—from causes now happily buried in the past—have had the effect of somewhat damaging its influence for good. We trust, however, that it has now fully and completely emerged from all its troubles, and that we may indulge the hope, that for the sake of the unfortunate class, whose interests are paramount to all others, and for whose benefit alone the Institution was founded, there may be no just cause for any future trouble. We think it is the sincere desire of every right-minded man, that the Institution may now have a season, at least, of tranquility, and that it may go forward fulfilling its mission of ameliorating the condition of the Blind, and fitting them for happiness, for usefulness, and for the active duties of life. These objects faithfully carried out, and it makes but little difference to the public who holds position in the Institute, so that its affairs are properly and economically administered.

Our work shop, as well the main building, which have been suffering for the last several years for want of repair, are now

in comparative good condition. It will require, however, an expenditure of several hundred dollars more to put the main building in a perfect state of repair. The wood work of both the exterior and interior, begins to need another coat of paint.

The new heating apparatus, commenced some years since, remains unfinished, and *must* so remain till a sufficient appropriation is made by the Legislature to insure its completion. The last Legislature made an appropriation of three hundred dollars to repair the old apparatus, but whether this amount will be sufficient to put it in working order, or whether it can be made to subserve the purpose of properly warming the building in all its parts, at all, remains to be shown. We trust, however, that in a short time we will be able to fully test its capabilities, and should it fail, it ought to be forever abandoned. We think it extremely problematical whether any system of heating has yet been devised, which will produce a uniform, comfortable and healthy heat in all parts of a building of the size and construction of ours.

The following statement will show the business operations of the work department, for the year ending October 31st, 1859:

Cash received..... \$1,345 72

*Value of Articles manufactured.*

Brooms .....	\$1,054 40
Bead work.....	245 25
Palm-leaf hats .....	55 80
Plain and fancy knitting.....	5 00
Brushes.....	100 32
Bottoming chairs.....	3 25

Total..... \$1,464 02

In addition to the above the following work has been performed by the female pupils, to-wit:

12 Sheets,	10 Window curtains,
40 Pillow cases,	30 Aprons,
25 Skirts,	12 Table cloths,
45 Towels,	40 Napkins.

Besides a very considerable amount of sewing for themselves, of which no account has been taken.

The occupation of braiding palm-leaf hats, being a new business for the Blind, we have only employed a few of our girls and some of the small boys at it. Our opinion of the practicability of this trade, as a profitable employment for blind girls, particularly, is not only unchanged, but strengthened by the experience of another year.

The broom-corn crop, sharing the same fate of other crops in the West, in 1858, has never before been so high or so scarce, as during the past year. The prices we were compelled to pay for it, left little, if any margin for profit on our brooms. High as it has been, however, we thought it better that our young men should be employed, even though the result of their labor should not pay cost of materials, than that they should sit down in idleness—the worst punishment that can be inflicted on a blind man. Yet for some two months we were utterly unable to procure material at any price. The great and leading object of the work department of this Institution is to teach the Blind some useful trade, by which they may be enabled to make a livelihood for themselves, and was never intended as a source of revenue to the State.

The teaching of handicraft, in short, forms a part of our system of education, and a very important part too, and cannot be abandoned without destroying one of its most useful features. Hence it ought to be kept in operation, though it should fail to fully pay its own expenses. We try, however, to always keep the expenses within the limits of the receipts.

Our thanks are due the proprietors for the following newspapers, which have been kindly and gratuitously sent us the past year, viz :

Indiana State Sentinel,  
Indianapolis Journal,  
New Albany Ledger,  
Locomotive,  
Herald and Era,  
Miami County Sentinel,

Paoli Eagle,  
Boone County Pioneer,  
Martinsville Monitor,  
Alton, Illinois, Courier,  
Central Christian Herald.

These papers have been read, with others, in the hearing of our

pupils, affording not only amusement, but valuable information to officers and pupils.

Appended to this report will be found a catalogue of pupils in attendance the past year.

Entertaining high hopes of the continued usefulness and success of this Institution, and that the ensuing year may be one of advancement to our pupils, and of encouragement to the friends of the Blind, I subscribe myself,

Very respectfully,

J. McWORKMAN,

*Superintendent.*
